

Utility Safety Health and Environmental Awareness (GAS)

Course Name

The Utility Safety Health and Environment Awareness (SHEA) Gas.

Who is this qualification designed for?

The gas scheme is designed for all persons involved in the operational activities of the gas industry who require access to sites, both permanent and temporary, including all levels of operatives, supervisors and management.

Course Content

The course content and delivery specification has been developed through consultation with the gas industry. Training material is produced and managed by EUSR on the industry's behalf.

1. Your Responsibilities
2. Risk Assessment
3. Workplace Procedures
4. Above Ground Installations Workplace Procedures
5. Physical Hazards (Part 1)
6. Working in the Highway
7. Physical Hazards (Part 2)
8. Excavations
9. Hazards to Health (Part 1)
10. Hazards to Health (Part 2)
11. The Environment

The course will be delivered through the context of the gas industry.

The course may only be delivered by trainers approved and licensed by EUSR.

CSCS Affiliation

The Utility SHEA (Gas) scheme is affiliated with the CSCS to allow gas industry workers access to construction sites for purposes of utilities work without the need to complete a separate CSCS card.

CSCS affiliated cards carry the CSCS hologram in the top left corner. A coloured bar may also appear under this hologram denoting the level that the operative has achieved in line with the CSCS card colour scheme.

Duration

This is a one day course
