

Utility Safety Health and Environmental Awareness (Waste Management)

Course Name:

The Utility Safety Health and Environment Awareness (SHEA) Waste Management.

Who is this qualification designed for?

It is designed for people involved in operations on waste industry sites, both long term and temporary and has been developed for operatives, supervisors and management.

Course Content

The course content and delivery specification has been developed through consultation with the waste industry. Training material is produced and managed by EUSR on the industry's behalf.

1. Your Responsibilities
2. Risk Assessment
3. Workplace Procedures
4. Physical Hazards (Part 1)
5. Waste Collection – Drivers.
6. Waste Collection – Operatives.
7. Physical Hazards (Part 2)
8. Hazards to Health (Part 1)
9. Hazards to Health (Part 2)
10. The Environment

The course will be delivered through the context of the electricity transmission and distribution industries.

The course may only be delivered by trainers approved and licensed by EUSR.

CSCS Affiliation

The scheme is affiliated with the Construction Skills Certification Scheme (CSCS) allowing utility workers access to CSCS controlled sites for purposes of utilities work without the need to hold a separate card. The utilities industries share a common goal and commitment to robust mechanisms that enable all workers to demonstrate health and safety awareness and relevant skills and competences.

CSCS affiliated cards carry the CSCS hologram in the top left corner. A coloured bar may also appear under this hologram denoting the level that the operative has achieved in line with the CSCS card colour scheme.

Duration

This is a one day course

Number of Delegates

Maximum Number of 12
